

Sprint 4 Plan

Product Name: Bite

Team Name: Munchies

Sprint start date: Wednesday, February 23, 2022

Sprint completion date: Tuesday, March 8, 2022

Revision #: 1

Revision date: Wednesday, February 23, 2022

Sprint 4

User Story 1: As a traveling consumer, I'd like the app to search automatically with my current location.

- Task 1: Navbar search bar - shows user's location used for search and lets user research with a new one (Don't display on the landing page)
 - Estimation: 3 hours, 5 story points
- Task 2: Automatic location button next to search button - asks the user to share their location and uses that to search instead
 - Estimation: 4 hours, 5 story points

Total Hours: 7

Total Story Points: 10

User Story 2: As a user with limited knowledge of technology, I do not want to struggle when using the app.

- Task 1: Dashboard button - navbar has a button to take the user to the dashboard page
 - Estimation: 2 hours, 3 story points
- Task 2: Favicon - replace default react logo with bite logo
 - Estimation: 1 hour, 1 story points
- Task 3: Footer - red bar at the bottom with some links (about, Github, etc)
 - Estimation: 4 hours, 5 story points
- Task 4: Upload final product - find hosting service & change endpoints
 - Estimation: 3 hours, 5 story points
- Task 5: Better "no results found" page - show the user more information & button to change filters
 - Estimation: 2 hours, 3 story points

Total Hours: 12

Total Story Points: 17

User Story 3: As a user interested in a restaurant, I want to see more info about it as well as save it for later.

- Task 1: More info on liked restaurant popup - get more restaurant details on modal (from backend details endpoint)
 - Estimation: 4 hours, 5 story points
- Task 2: New dashboard page - shows lists of user's likes and dislikes
 - Estimation: 5 hours, 8 story points

- Task 3: Expanded restaurant details on more results page - user can click on divs to expand and show more info
 - Estimation: 3 hours, 5 story points

Total Hours: 12

Total Story Points: 18

Backlog:

From Sprint 3:

- Add Search Bar into the navigation header bar
- Display Likes & Dislike on home page

In the future:

- User accounts
 - Users can eventually log in and see their favorites
 - Users can also access their favorites across devices
- Monetization
 - Add affiliate yelp links when users click on restaurants' websites

Task Assignments:

Kidus Michael: User Story 1: Task 1, User Story 2: Task 2 & Task 3

Yasmin Hernandez: User Story 2: Task 3 & Task 5

Enrique Davalos: User Story 3: Task 1, User Story 1: Task 2, User Story 2: Task 4

Jackie Wong: User Story 3: Task 2, User Story 3: Task 3

Marvin Xu: User Story 3: Task 2, User Story 3: Task 3

Team roles:

Kidus Michael (Scrum Master)

Yasmin Hernandez (Product Owner)

Enrique Davalos (Developer)

Jackie Wong (Developer)

Marvin Xu (Developer)
